

How big is the electric capacitor market?

The electric capacitor market is estimated to grow at a CAGR of 4.13% during the forecast period to reach US\$28.146 billion by 2027, from US\$21.203 billion in 2020. The electric capacitor, like a rechargeable battery, has the ability to store energy in the form of electrical charge while producing a static voltage across its plates.

Why is the capacitor market growing?

The capacitor market has grown in response to rising demand for consumer and wearable electronics, as well as the increasing usage of polymer-based capacitors in industrial applications. The electric capacitor market is segmented by type, polarization, voltage, industry vertical, and geography.

What are the key players in the capacitor market?

Some of the key players from the capacitor market such as KYOCERA Corporation provides ceramic capacitor that has a wide voltage range and low series resistance (ESR). These specifications are well-suited for automotive applications. Thus, rise in sales of electric vehicles is likely to have a positive impact on the market.

How is the electric capacitor market segmented?

The electric capacitor market is segmented by type, polarization, voltage, industry vertical, and geography. Market growth will be fueled by technological developments in the consumer electronics industry, as well as increased deployment across applications necessitating a mix of high capacitance and voltage in the automotive and power industries.

Why are supercapacitors important for electronics industry?

Supercapacitors have stable performance, fast charging and discharging speed, environmental protection and safety, and are suitable for electronics applications. Therefore, growing demand for capacitors from the consumer electronics sector is expected to fuel the capacitor industry. Request a custom report on Capacitor Market

Where can I find a 2022 edition of capacitors?

Paumanok Publications Industrial Market Research (IMR HQ- Saxapahaw NC USA) has released the 2022 version of "Capacitors: World Markets, Technologies & Opportunities: 2022-2027 ISBN #0-929717-02-3 (2022)."
