Where can I buy a 48v battery?

Buy 48v Battery and get the best deals at the lowest prices on eBay! Great Savings & Free Delivery / Collection on many items

Can a 48v battery be used on an e-bike?

Power your E-bike with one of the many 48V battery packs available on eBay. How long of a range can a 48V battery offer? The main factor that determines how long your battery will last depends on how often you pedal and use the throttle on your E-bike.

How long does a 48v battery last?

Some batteries can even last well over 100 kilometres, depending on certain conditions. Here are some factors that can affect the range of your battery: Battery capacity: Many 48V batteries offer between 17.5Ah to 20Ah capacity with differing rates of discharge. They can also range from 750W to over 1600W of battery power.

How long does a 48v battery take to charge?

Many 48V batteries come with fast-charging technology, which allows them to charge fully in just a couple of hours. Standard charging typically takes five to eight hours to obtain a full charge. Refer to the manufacturer site for details regarding specific makes and models.
