

What is an ex fan?

EX fan designed for use in battery-charging rooms, fume cupboards and other demanding environments where explosive atmospheres can occur. The fan combines a compact design highly resistant to environmental stressors with a reliable ATEX rated AC motor.

Which ex fans are best for explosive environments?

Explosion-proof fans for areas with explosive atmospheres MAICO has been a specialist for fans in potentially explosive atmospheres for more than five decades and has the right Ex fans in its product range for the most varied requirements. This variety of models ranges from roof fans to wall fans and duct fans in a wide variety of nominal sizes.

What is an Atex fan motor?

Atex Directive and Increased Safety Fan Motors. Explosion proof, increased safety and flameproof fans for use in hazardous environments. There is a variety of differing ratings so it is important you know the correct rating for your particular application.

Can industrial fans be used in explosive atmospheres?

Section 4.4.1 of the standard describes how industrial fans should be designed to make them suitable for placement on the EU or UK market, in explosive atmospheres. "Fans for operation in potentially explosive atmospheres shall be of rigid design."

Are ATEX fans safe?

For safety and transparency, each unit is clearly ATEX labelled to ensure traceability back to source. ATEX fans are safe to use in hazardous areas with gas zones 1 and 2, and dust zones 21 and 22. Manufacturers design spark resistant fans with materials that prevent sparks and friction. This helps to avoid ignition in dangerous environments.

What is a spark resistant fan?

Manufacturers design spark resistant fans with materials that prevent sparks and friction. This helps to avoid ignition in dangerous environments. These include stainless steel, polypropylene and aluminum. An explosion-proof fan lowers the risk in explosive areas, reducing the chance of ignition in hazardous environments.

If the level of hydrogen in a battery room exceeds 1% after one hour of charging, mechanical ventilation using ATEX explosion-proof exhaust fans is required. This should be a ...

Find Explosion Proof Exhaust Fan related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of Explosion Proof Exhaust Fan information. ... The VS-12 ...

Rosenberg fans are designed in an explosion-proof version, manufactured and tested in accordance with the requirements of the following standards: EN 1127-1 Explosive ...

All Axair ATEX explosion proof fans are suitable for IIC gas groups to ensure adequate and safe removal of Hydrogen gas. Since the UK left the European Union, changes ...

Explosion Proof Fan Atlantic Blowers ABAF-10-220E \$ 535 32; Explosion Proof Fan Atlantic Blowers ABAF-8-220E \$ 476 22; Ramfan Tilt Bracket for 16? EFC/EFi blowers \$ 768 00; ...

These areas include spray booths and battery charge rooms. These products are suitable for all Group II hazardous gas environments EXCEPT for the following: Where the ambient temperature is less than -20 °C or greater than 40 °C. ...
