

What training does battery associates offer?

Battery Associates offers bespoke battery education courses and training packages for consultants interested in strengthening their knowledge and understanding of the battery sector. Similarly to the BatteryMBA CPD accredited course, certifications may be available.

Why do you need a battery and energy system training program?

With the world transitioning to a more sustainable future, our program provides critical knowledge and skills to stay ahead of the curve and seize emerging opportunities. Unlike other training programs, we offer a unique, cross-sector structure that covers all aspects of advanced battery and energy system technologies.

What is a battery101 course?

Battery101, a course developed by Battery Associates, is a CPD-accredited entry-level course for all battery enthusiasts. This online and on-demand course is perfect for anyone eager to learn or refresh the basics about battery technology. The course takes approximately 3 hours to complete.

What courses are available in Battery academy?

Learn More Battery Academy courses are available in five topical bundles: Battery Fundamentals, Battery Management Systems, Cybersecurity & Energy Data, Grid & Utility Energy Storage, and EV Batteries. Bundles might include courses across multiple difficulty levels.

What is a lithium-ion battery lecture?

Lectures are taught by recognised industry leaders and topics range from lithium-ion battery cell production to clean tech market trend analysis. The programme relies on a global network of battery leaders and provides continuous training since participants have access to all prior and future lecture recordings.

Why does battery education matter?

WHY BATTERY EDUCATION MATTERS? With batteries playing a tremendous role in the energy transition, it is essential to develop a highly skilled workforce along the entire battery value chain. The European Battery Alliance estimates the battery workforce to reach around 800,000 by 2025.
