

## Battery projects under construction in Pristina

Which Chinese company is constructing a battery plant in Hungary?

In Debrecen, Hungary, Chinese company CATL is constructing a battery plant with a 7.3 billion euro investment. This facility, with a production capacity of 100 gigawatt-hours (GWh), began construction in 2022.

Will Serbia and Kosovo support a power plant in the Western Balkans?

The chambers of commerce of Serbia and Kosovo\* used the occasion to vow to help the development of the Western Balkans in the economic, social and political sphere and announced a joint group would support plans for a power plant in the region that would install an energy storage facility.

How much does SCB's new battery plant cost?

In the town of Frauenfeld, SCB has high expectations for its new battery plant, valued at 775 million Swiss francs (approximately 880 million dollars). The plant is designed to reach full operational capacity by 2030, with an ambitious production target of 7.6 GWh.

Who are the partners for a lithium-ion battery project?

Among the partners for this project are Volkswagen, InoBat Auto, and CATL. This facility will focus on producing state-of-the-art lithium-ion batteries for electric vehicles and is expected to create around 4,000 jobs. Additionally, there are other projects in the early study or development phase.

How many jobs will a lithium-ion battery plant create?

This facility will focus on producing state-of-the-art lithium-ion batteries for electric vehicles and is expected to create around 4,000 jobs. Additionally, there are other projects in the early study or development phase. Britishvolt, a British company, is considering building a gigafactory in Slovakia with a potential capacity of up to 8 GWh.

Is Slovakia a center for electric vehicle battery production in Europe?

Furthermore, Enel, the Italian company, is exploring the possibility of establishing a factory in the country with a projected capacity of up to 50 GWh. Thus, Slovakia is positioning itself as a significant center for electric vehicle battery production in Europe.
