

Can a refurbished phone battery be replaced?

If the refurbished phone's battery is fine, it will not be replaced and when you buy the phone it will use the battery that was installed by the manufacturer. If the phone is older, you might notice that it is slightly lower than 100 in Battery Health. As long as the battery health rating is in the high-90s, you're good to go.

Do refurbished iPhones have a pristine battery?

Once again, pristine iPhones will either have a pristine battery, or a brand-new OEM or grade-A battery. To sum up, the battery condition of a refurbished phone is directly related to the condition of the phone itself. Refurbished phones that are pristine have to have perfect batteries. You can buy these phones [here](#).

What is the best battery replacement for a refurbished Samsung phone?

In cases where the Samsung phone battery needs to be changed, OEM batteries are the best replacement to have a new battery in a refurbished phone that offers the exact same performance of the battery that the phone had in its brand-new condition as OEM parts are made by the phone's own manufacturer.

Are refurbished phones bad?

One major problem with refurbished phones is the battery. If you get a refurbished phone through a third-party retailer, the battery may not be new, so battery life may be low. Only 52 percent of respondents to a Consumer Reports survey said their refurbished phone came with a new battery.

Are refurbished phones better than new phones?

Refurbished phones have a lower environmental impact than new phones due to less e-waste. Refurbished phones are likely to last longer than used phones. Cons of refurbished phones: Refurbished phones are not always sold with the original accessories, so you would need to buy those separately. You won't always get the latest model.

Can a refurbished phone be resold?

Before a refurbished phone is resold, the battery must undergo rigorous testing to ensure it's in full working order. In some cases, this may mean that the battery has been replaced. But most of the time, it will be the original battery that has been restored to its original condition. Are refurbished phones sustainable?
