

Will a solar powered generator charge my home?

A solar powered generator will not charge your home but is ideal for small appliances and devices including of course lap tops and mobile phones. Remember, no portable generator will power your home but some solar generators can power some key appliances in your home during an emergency.

How much does a solar generator cost?

Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

How much does a home backup solar generator cost?

A home backup solar generator capable of powering most appliances, keeping your LED lights on, and keeping your electronics charged and running will cost between \$2,000 and \$10,000 depending on capacity, power rating, and included accessories. Let's look at how these choices will impact how much you'll spend.

How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could probably power a couple of appliances, keep lights on and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

What is a solar generator?

...A Solar generator is of course a generator powered by solar power. These portable generators are powered by capturing energy power from the sun storing that power in a battery to be used mainly as a back-up. Popular uses are when camping, on boats at home and in the garden.

Can a solar generator power a small home?

A whole house solar generator is also a good choice for a small home with lower than average power needs. For instance, an off-grid cabin, an RV, or a tiny home. You can power most of your appliances with a solar generator with the exception of high-wattage systems like a water heater, oven, washer/dryer, and your central AC.
