

How many years is the original battery warranty

How long is a car battery warranty?

Most manufacturers offer a warranty of around 36 months as standard. Some high-performance batteries may provide warranties extending to 60 months or more. Car battery warranties often vary based on the type of battery. For instance, traditional lead-acid batteries usually come with a warranty of three years.

Do extended warranties cover car batteries?

Car batteries are typically considered "wear and tear" items. This means extended warranties often do not cover them. However, most car batteries include a manufacturer's warranty that protects against defects for a certain period. Always review the warranty terms to understand the specific coverage details before buying a car battery.

How long does a car warranty last?

The Basic Vehicle Limited Warranty covers your vehicle for 4 years or 50,000 miles, whichever comes first.
