How to accept the battery pack

How to ship batteries?

We've listed some must-dos on how to ship batteries: Batteries need to be packed in inner packaging that completely surrounds them, like a fiberboard box. This prevents short circuits. Inner packaging must be packed in strong, rigid outer packaging like wood, fiberboard, or metal boxes. This provides impact and crush protection.

Should you ship batteries safely?

From electric vehicles to laptops to massive grid storage systems, the demand for batteries is growing. And so is the need to ship batteries safely and efficiently. But hold up! You can't just toss lithium batteries in a box and call it a day. Transporting batteries is a serious business.

How many lithium batteries can I send in a package?

You may only send a maximum of 2 lithium batteries(or 4 lithium cells) in one package. You must take all available precautions to stop the device overheating. Turn off the device and seal the on/off switch with tape, to stop it turning on accidentally. Do not ship lithium batteries near to metal.

How do you package a lithium battery?

Inner packaging must be packed in strong, rigid outer packaging like wood, fiberboard, or metal boxes. This provides impact and crush protection. Lithium batteries require both inner and outer packaging, along with sufficient cushioning material. Packages must be sealed securely and be able to contain leaks in the event of electrolyte spills.

Are lithium batteries safe to ship?

Read the International Air Transport Association guidance for lithium battery shipments A UPS guide to help you safely pack and ship many kinds of batteries including lithium metal, damaged or defective batteries and alkaline or certain non-spillable lead-acid batteries.

How do I ship a recalled battery?

Place the shipping label on the top of the largest side. Ensure that all required outer markings, labelings and documentation appear. FedEx Express will not accept or ship recalled or defective batteries, either as a stand-alone unit or contained with equipment. Waste batteries or batteries being shipped for recycling or disposal.
