

How do I sell a property with solar panel leases?

Completing the sale of a property with solar panel leases requires careful planning, open communication, and transparency. By following these steps, you can navigate the process successfully and achieve a fair and satisfactory outcome for both you as the seller and potential buyers.

Do you buy a house if a solar power company goes into liquidation?

We will buy any house in any condition, so whether you have leased your roof to a solar power company, or your solar panel leasing company has gone into liquidation, we can help. We are also proud members of the regulatory boards, the National Association of Property Buyers, and The Property Ombudsman.

Does a solar panel lease affect the sale price of a house?

The impact of a solar panel lease on the sale price of a house can vary. Some studies have shown that homes with solar panels can sell for a higher price compared to similar homes without them, as buyers are attracted to the potential energy savings and environmental benefits.

What happens if a solar panel company goes into liquidation?

If the solar panel company has gone into liquidation, we can obtain evidence of this from companies house and that is usually enough to satisfy the lender, but they may still require a receipt as evidence that there is no money owing. What Happens if the Client Doesn't Have a Lease?

Should I list my house for sale with solar panels?

When listing your house for sale, be sure to mention the solar panel leases prominently in the property description, as well as in any marketing materials or online listings. This will generate more interest and attract buyers who are specifically looking for properties with sustainable features.

Should you disclose your solar panel lease to potential buyers?

It is essential to disclose all information related to your solar panel lease to potential buyers. This includes any potential restrictions or obligations they will inherit with the lease. Honesty and transparency are crucial in building trust with buyers and ensuring a smooth sale process.

Solar panels that are leased can often cause the most problems as the lease must be council of mortgage lenders compliant. If the lease is not CML compliant, a deed of variation will need to be entered into between the client and the solar panel company which can cause delays for the ...
