

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

What are solar powered street lights?

Easy to install just mechanical fixing no mains powered wires. Dragons Breath Solar powered street lights have been designed to adopt powered illumination using only the sun's energy. These provide us with the ability to design street lights and road lighting are for uses across the UK.

Can solar street lights be used on a road?

In addition, solar-powered road lighting is immune to power cuts. The road will remain well-lit even if the primary grid fails. Your solar street lights will store energy internally and light up the road for travellers through every season. We can also install temporary solar lighting for use on more minor roads.

Why should you choose Sun-Lite solar street lighting?

By choosing Sun-Lite Solar street lighting, you can light up your business, surrounding roads and car parks with a safe, clean, green alternative. In addition, our team are committed to providing the highest levels of customer service to make the installation process smooth and straightforward.

Do commercial car parks need solar street lights?

Commercial car parks are almost always paired with CCTV installed. However, it can be challenging to capture sharp, high-quality footage in dark, foggy weather. LED solar street lights will illuminate dull corners to protect your business from potential criminals 24/7.
