

Are solar powered lights a good choice for your outdoor space?

Whether you have a large garden or a compact balcony, our solar powered lights are perfect for any outdoor space. And with no electricity needed, it couldn't be easier to create a bright, cosy setting that you'll love spending time in with a smaller carbon footprint.

Are solar powered garden lights a good choice?

This makes the solar powered solution a great option for garden lights. Just like a solar-powered lamp, battery-powered lighting is a convenient garden choice, since it doesn't need any wires. And just like with a solar-powered lamp, you can move it around as you please. So, when the sky goes dark, you can easily choose where you want to sit.

What is solar-powered lighting?

Solar-powered lighting is a great solution to bring light into an outdoor area. This type of energy uses photovoltaic panels in order to convert sunlight and store it as electrical power, which can be used during the night for lights.

Are solar lights eco-friendly?

Solar lights provide a great and eco-friendly way to brighten outdoor spaces in various forms like pathway lamps, lanterns or fairy lights. Operating on the power of the sun alone, these solar centres are energy efficient as well as environmentally friendly lighting solutions for your needs.

What is solar powered lighting & how does it work?

Solar powered lighting stores pure sunlight and converts it into an electrical current, which is both environmentally friendly and extremely convenient. Thanks to this, there's no need for wires. So, you never have to worry about having to hide a mess of ungainly cables or the risk of tripping over them.
