

What are battery codes?

Battery codes typically consist of a series of letters and numbers, each providing distinct information about the battery. While there is no single standard for all battery types, certain conventions are commonly followed across different categories:

How are battery codes standardized?

Battery codes are sometimes standardized by organizations such as the International Electrotechnical Commission (IEC) and the American National Standards Institute (ANSI). These bodies have established guidelines for labeling batteries, ensuring that codes are consistent and universally recognized.

What is a rechargeable battery?

It is composed of one or more electrochemical cells. The term "accumulator" is used as it accumulates and stores energy through a reversible electrochemical reaction. Rechargeable batteries are produced in many different shapes and sizes, ranging from button cells to megawatt systems connected to stabilize an electrical distribution network.

What is a AA battery code?

These codes primarily refer to the battery's size: AA: This code identifies a cylindrical battery with a standard diameter of 14.5 mm and a length of 50.5 mm. Typically, these batteries are composed of alkaline or lithium chemistries, offering a nominal voltage of 1.5V.

What does a battery size code mean?

Certain sizes, given by one or two digit numbers, represent standard size codes from previous editions of the standard. Sizes given as 4 or more digits indicate the diameter of the battery and the overall height. The numbers in the code correlate with the battery dimensions.

How do I view information about the controller rechargeable battery?

Use this procedure to view information about the controller rechargeable battery using the Hardware Service Manager in the IBM® i operating system. Sign on to the system with at least service level authority. On the command line, type strsst. Press Enter.

Visit us online to get the various hs codes and commodity description. Search. Harmonized System Codes of Schedule B of Harmonized Commodity Description. Searched for: UN3480 CLASS 9 - RECHARGEABLE LI-ION BATTERY/1000 96031005-wiskbrooms-wholly-or-pt-of-broom-corn-n o 96031015-wiskbrooms-wholly-or-pt-of-broom-corn-n o.
