Hi, I have a 42T4763 battery which seems to be ok for a T430 (see here for example: ). But I have this message on ...

In January 2023, Tshisekedi's efforts finally came to fruition. A final round of negotiation with the Chinese-backed Sicomines consortium led to a new agreement of \$7 billion for infrastructure development. This new deal, however, does not seem to address the core issues of its predecessor. No new steps have been taken to increase ...

The Loudima family in Congo have long been without electricity but they have found an environmental solution: solar power. In the remote districts of Pointe Noire, the Congolese start-up H&#233;lios ...

The development of the EV sector will increasingly depend on a global cobalt supply chain, with battery demand for EVs expected to grow nearly 40 times between 2020 and 2040, to achieve the Paris Agreement goals (IEA, 2021) nsequently, the overall demand for cobalt to produce these batteries will increase 21 times, fuelling a spike in cobalt mining (ibid).

Hello, I recently installed a new battery into my laptop as the old battery had failed and no longer held any charge. After installing this new battery I: did a hard power reset and drained the capacitors, updated the BIOS, ran the BIOS on default settings, and even tried flipping the connector to ensure all of the contacts were in the right place.
