

Who will supply the third batch of batteries for E-GMP platform?

Hyundai Motor group has announced that it has chosen CATL and SK Innovation to supply the third batch of batteries for its E-GMP Platform.

Which battery manufacturers are supplying e-GMP batteries?

Hyundai Motor Group just announced it has chosen both SK Innovation and CATL as battery suppliers for its E-GMP. The Asian battery manufacturers will provide the third batch of lithium-ion battery cells for Hyundai's electric vehicles launching after 2023.

What is the global power battery usage in 2023?

The data shows that the total global power battery usage in 2023 was approximately 705.5GWh, representing a 38.6% year-on-year increase. It is worth noting that the agency predicted at the beginning of last year that the global power battery installation capacity would reach 749GWh in 2023.

Which Chinese companies dominate the global power battery market?

From the above list, it is obvious that Chinese companies continue to dominate the global market. The top 10 companies in terms of power battery installation capacity are: CATL, BYD, LG Energy Solution, Panasonic, SK On, CALB, Samsung SDI, Gotion High-Tech, EVE Energy, and Sunwoda.

Who makes EV batteries?

Companies like CATL (Contemporary Amperex Technology Co. Limited) and BYD lead the industry with their large-scale manufacturing capabilities. These companies supply batteries not only to domestic automakers but also to global brands like Tesla and BMW, solidifying China's position as the world's EV battery powerhouse.

What is the market share of Chinese battery companies in 2023?

In the TOP10 list, the market share of Chinese companies in 2023 reached 63.5%. And the market share of the three South Korean battery companies, LG Energy Solution, SK On, and Samsung SDI, was 23.1%, a decrease of 1.6% compared to the same period last year.

On December 16, the Ministry of Industry and Information Technology released the list of the second batch of enterprises that meet the specifications of the electric bicycle industry, including 24 enterprises including Xinri, Yadi, Emma and TAILG.
