

Who makes the best solar panels?

We compared manufacturer data, independent reviews, and third party accreditations for all 322 available solar panel models on the market. According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO.

What are the best solar panels in the UK?

According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO. What is considered the "best" solar panel in the UK will vary depending on who you ask, and what metrics you value. Some homeowners may prefer a low-cost solar panel over one that's highly efficient, for example.

What makes a good solar panel system?

The quality of the installation and other equipment (such as the inverter) also contribute to how good the solar panel system is overall. Price also varies depending on the solar panel brand and installer. The Which? members we surveyed owned solar PV panels from more than 20 different brands.

Do solar panels fit on my home?

Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands. They may suggest a particular brand depending on your requirements.

Are SunPower solar panels any good?

Their products are superb too, none better than the M-line from its SunPower Equinox Series. The panels boast a maximum power output of 440 watts and efficiency rating of 22.8%, both best in class. I also like the fact that SunPower uses microinverters behind each panel to convert sunlight into power for your home.

Which REC Solar panels are the best?

Not including the other solar panels on the list, we've identified REC's Alpha Pure-RXR solar panels as the best across all of the main categories that we've assessed. One of the most notable selling points is the 25-year product and performance warranty, a strong indicator of REC's quality craftsmanship.
