

Is Ali express a reliable source of capacitors?

Never buy capacitors from unreliable sources as there are huge market for fakes. Ali express is not reliable source of goods. There are many good capacitor brands. Not in particular order.. I personally prefer Rubycon but for reasons of availability do sometimes use Panasonic/nichicon. There are also many other ok brands but i prefer the above.

Are Mallory capacitors good?

FWIW,Mallory made some great aluminum electrolytic capacitors for PSU/UPS types of applications. Fresh units are under the CDE label as Mallory became Cornell Dublier. Might be helpful if you manage to locate NOS Mallory capacitors. Yeah seen them in some high end PSU/UPS applications. Reliability is rather goodfar as i understand.

Re: Capacitor brands? Don't ever buy capacitors from China. Especially top brands from the post above.

Is C0G a stable capacitor?

As you may have noticed in the chart,C0G is extremely stable(note that C0G and NP0 both have a zero,not an uppercase "O"). C0G is a Class 1 dielectric and an all-around capacitor superstar: the capacitance is not significantly affected by temperature,applied voltage,or aging.

Where can I buy a capacitor?

Capacitors seem to be one of those things that is counterfeited a lot, so definitely want to buy from good sources like Digikey, Mouser etc. AVOID Ebay, Aliexpress, Amazon etc as you don't know what you're getting. Re: Capacitor brands? Vishay and Kemet are not "premium" grade electrolytic manufacturers.

Should I buy capacitors from China?

Don't ever buy capacitors from China. Especially top brands from the post above. In addition to those there are: Vishay and Kemet are not "premium" grade electrolytic manufacturers. Kemet makes fine poly's and Vishay makes fine ceramic caps. I would not recommend either as first choice for Electrolytics.
